

ALUMINUM SECTIONAL DOORS

If you're in need of a resilient and attractive sectional garage door for your project, we have you covered. Davis Door Aluminum Sectional Doors are an ideal solution for any multi-family or commercial building, even in openings with **headroom as limited as 13"**. Complement your building's design aesthetic and elevate your next project's possibilities with our aluminum sectional doors.

MAIN ADVANTAGES

ADAPTABLE DESIGN

- Perfect for projects with minimal headroom - even as little as 13"
- Sheeted options to complement your design, including solid, expanded or perforated for optimal visibility
- Superior ventilation
- Stunning, standard mill finish, and powder coating options

SPEED AND SECURITY

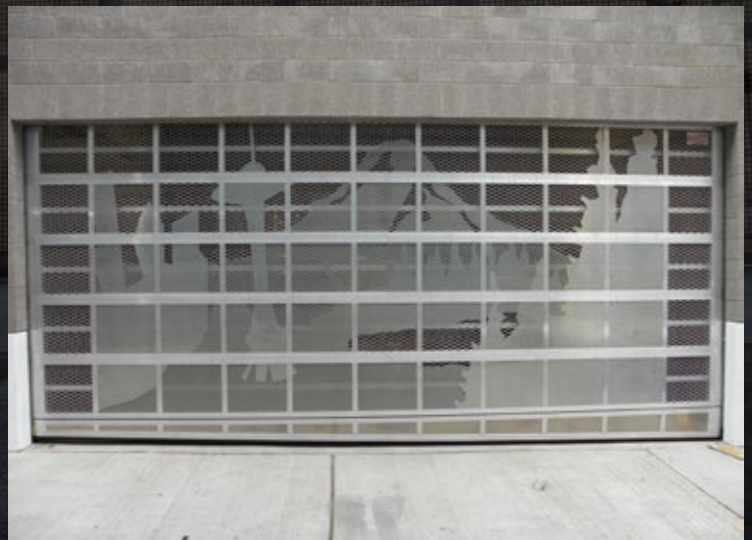

- 36" tall, light curtains provide a web of protection
- Monitored sensing edge keeps users safe
- Anti-lift technology to give your clients peace of mind

RELIABILITY

- Designed for 250k cycles
- Innovative and long-lasting design
- Industry-leading two-year warranty
- Liftmaster HCTDCU provides powerful, durable performance
- Each door is designed, factory-assembled and cycle tested in our Seattle facility for ease of installation
